PROFESSIONAL EXPERIENCE

Edge | Full Stack Web Development Intern | February 2020 - March 2020
A digital wallet app to buy, store, and trade various cryptocurrencies.
- Built a rest wallet demo, which implements an API for accessing a wallet on a web server
- Built a referral manager tool for storing and sending payments owed to referral partners
- Built an engine for querying partner APIs to write standardized transactions to a database
- Gained working proficiency in TypeScript, Express, and CouchDB

LEARN Academy | Full Stack Web Development Student | November 2019 - February 2020
Full Stack Bootcamp with real-life aspects of a job in web development.
- Completed over 480 hours of direct coding experience
- Gained working proficiency in JavaScript, Ruby, and React and created full-stack programs implementing Test Driven Development
- TA - Jumpstart Weekend for group of prospective LEARN students

GoFundMe | Trust and Safety Lead | May 2015 - November 2019
An online social fundraising platform that helps users raise donations.
- Worked closely with our internal tools team on 9 fraud prevention tools, gave important feedback and product feature suggestions quarterly and helped the engineers iterate on product improvements monthly
- Managed a team of 6 with biweekly 1:1s, setting career and metric goals, and schedules
- Organized quarterly events and professional development for the women at GoFundMe group
- Created and managed an automated auditing system for peer feedback through Google Sheets for a department of over 30 employees
- Sent to Dublin to represent Trust and Safety at GoFundMe in Europe for 6 months and sat on a panel in London with the Fraud Advisory Panel

EDUCATION

2010 - 2014 • UC Santa Barbara
Bachelor of Arts in Mathematics with Minors in Spanish and Education
